

# Beauty and the Best: Ten top products for the month ahead

Friday 28 February 2014

We are nearly into spring but it doesn't feel like it after the torrential weather conditions.

## Biologique Recherche Skincare

This skincare system is somewhat unique. If you are a die-hard beauty enthusiast you will love this brand. Instead of buying skincare over the counter you attend a skin analysis session where a computer reads the levels of elastin and collagen in your skin. From this the therapist will give you a tailor-made skincare regime. Biologique Recherche has a clinical approach to beauty care using intentionally pure, concentrated, raw ingredients, as well as innovative and meticulous protocols and procedures. £POA.
