The greatest trick the devil ever pulled was to convince the world he didn't work at Unico...

## The Peninsula Spa

**A** Biologique Recherche (BR) facial at The Peninsula Spa is a truly uplifting experience. The pampering oasis recently joined hands with the aforementioned, famed French luxury skincare brand for a whole new series of treatments. Designed especially for areas of the body that require extra attention, each treatment tackles specific needs with anti-aging protocols for targeting tell-tale areas such as the décolleté and face. The Intensive Lift C.V.S Anti Ageing therapy we had (RMB2,200 plus 15 percent/110

min) is the ultimate age-defying facial. It entails in-depth skin analysis, deep cleansing and exfoliation to minimize pores, as well as plenty of active ingredients to boost cellular metabolism and a modulating massage to redefine facial contours. If you can stick to the skin regimen at home – using Biologique Recherche products, currently only available at Peninsula – even better. Your facial treatment will last much longer. **MC**
