For the ultimate bespoke beauty indulgence, look no further than The Peninsula Spa's Haute Couture by Biologique Recherche six-month skincare treatment. Priced at a whopping \$25,000, this personalized facial program begins with a three-hour skin assessment by Dr. Philippe Allouche, who flies in from Paris for the initial appointment. Using the spa's patented Skin Instant Lab, Allouche measures the client's skin hydration, trans-epidermal water loss, elasticity, pigmentation and sebum levels and sends the results to his laboratory in France for in-depth analysis. Based on the findings, the client receives a six-month supply of custom serums and creams designed to target specific skin issues, plus a series of monthly facial treatments at The Peninsula. After completing the Haute Couture experience, Allouche will fly in to perform a final assessment, measure the program results, and provide recommendations for maintaining glowing results.
