ENGLISH FRANCAIS ITALIANO PHOTO

Today I reveal to you one of my favourite address for beauty in Paris. **Biologique Recherche**. The Ambassade de la Beauté (you can understand all just by the name) of Biologique Recherche is in a very chic location right on the Champs Elysees in Paris. Even though that not everybody knows this brand because of its premium and privacy focused way (it is quite difficult to see it on mass advertisings) and because it is not possible to buy its product at the pharmacy (as it happens for other French brands specialized in the beauty industry). But as you know I love so much to take care of me and I am really happy to share with you this beauty secret address!
