S'abonner

piaarrobio i have had cystic acne and melasma since i was 24. the sun used to discolor my face so intensely it looked like i had a god damn mustache. the acne was hormonal and from an imbalance in my gut. every month id get up to 8 cortisone shots in my face to prevent the acne from becoming infected. between @drghavami and @camillefields.skin i can leave my house without make up for the first time in my life.
