farahpink I've talked about this toner in my stories before but I think it's time for it to finally get some real shine on my page. Ladies and gentlemen, this is one of my ride or die holy grail products! The @biologique_recherche Lotion P50 also known as the "facial in a bottle." This is the greatest toner that has ever touched my skin!!!

Ingredients include: Water, Glycerin, Onion Extract, Lactic Acid, Salicylic Acid, Burdock Extract, and Plankton

What it does: exfoliates, hydrates and balances the pH of the skin, preparing it for other skincare products

How do you use it? I apply with a cotton pad after cleansing and then apply a serum,
