December 13, 2017 8:30 am

With her sharp sense of humor, risk-taking hairstyles, and impeccable fashion sense, Nicole Richie has always been one of our favorite beauty/style/life icons. She's also one of the people we *dream* of going shopping with. Imagine Nicole styling your outfit while endlessly cracking you up? Total dream date. Through Nicole's Holiday Challenge with JCPenney, we can all get closer to having her as our shopping BFF.

Partnering with JCPenney on its Jacques Penné Holiday Boutique, the Great News actress curated her picks for holiday fashion, home décor, and other creative and affordable gifts. While the Jacques Penné pop-up took place in NYC's SoHo neighborhood this past weekend, the rest of us can still experience a virtual version of the shop at JacquesPenneJCP.com from now to January 7th.

We were able to chat with Nicole about the one beauty treatment she hasn't tried yet and her obsession with moisturizing.

HelloGiggles: What are your favorite skin care products to use this winter?

Nicole Richie: I use Biologique Recherche everything. My skin routine is my makeup routine. That's where I put my effort because I don't wear foundation, so that's where I focus.

HG: Are there any beauty resolutions that you want to try in the new year?

NR: I've never had a laser in my life, so I'm open to that.
