# Some of the Best Skincare Products for Spring

The award for best luxury face formula award goes to...

→ by SUNHEE GRINNELL

FEBRUARY 2, 2018 12:22 PM

**I**nvest in the best this spring with one of the following five formulas from Shiseido, La Prairie, Biologique Recherche, Lancôme, and Royal Fern. Each of these elixirs and creams are packed with transformative ingredients to help hydrate and strengthen the skin and return it to a state of youthfulness. Below are a few noteworthy skincare potions that are must-haves this spring.

**1. Shiseido Essential Energy Moisturizing Gel Cream:** Using a new delivery energy system, this bio-cellular breakthrough cream reboots skin's sensors deep beneath the surface. From their cutting edge-science, ReNeura Technology™ wakes up skin's nerves faster to detect the information being received on an optimal level for one's skin to respond quicker. By doing so, it restores youth and much suppleness to the skin. Packed with Bio-Hyaluronic Acid and many highly affective proprietary extracts addresses many issues, including oxidation of sebum. And especially for this price point, it is a must have! (\$48 for 1.7 o.z.; [nordstrom.com](http://nordstrom.com))

**3. Biologique Recherche La Grande Crème:** Inspired by findings in research of epigenetics in DNA, the famed scientist of the brand, Dr. Phillippe Allouche formulated a cream that may bring your DNA back to its original state – well, at least up to 82%-91% of it, as per his clinical trials that was conducted in 22 women, 47-65 years of age. We are born with a certain DNA, but due to external factors, such as smoking, pollution, stress, bad diet, lack of exercise, sun damage, etc., some our gene expressions get altered along the way. Based on his new findings of genetic research, this new cream promises protect the skin and rejuvenate cells. (\$675 for 1.7oz.; [biologique-recherche.com](http://biologique-recherche.com))

**4. Lancôme Absolue Precious Cells Rose Drop:** First off, the petit golden bottle with its rosy colored elixir is already hard to resist, then there's the excellent formula. This Night Peeling concentrate is a blend of precious Rose extracts and Rose essential oil, as well as Argan, Meadowfoam Seed oils, plus Glycolic Acid makes it the perfect exfoliating night treatment. Blend it into your night cream or masks and wake up to a newly exfoliated skin that's deeply nourished. (\$110 for .5oz.; [neimanmarcus.com](http://neimanmarcus.com))

**5. Royal Fern Phytoactive Anti-Aging Rich Cream:** Known dermatologist based in Frankfurt, Germany, dermatologist Dr. Timm Golüeke created a uber-rich cream made with highly efficacious Vitamin A complex, a double dose of his patented Royal Fern Complex, highly concentrated Vitamin C, along with natural substances like fern extract, wild rose blossoms and more. If your skin is dehydrated and dull, this plush emulsion will bring back your complexion to life, as it will strengthen skin's elasticity for an overall improvement, and even address hyperpigmentation. (\$280 for 1.7oz.; [royalfern.com](http://royalfern.com))
