Melanie's Desires Du Jour

4) [Biologique Recherche L'Eauxygénate](#), \$38

I clearly have no clue how to pronounce the name of this facial mist (the two weeks of French class in sixth grade obviously did me no good). But I do know that the invigorating blend of Vitamin A and C plus kiwi and orange is like a scrumptious cocktail for your skin. The light spray is perfect for a mid-day pick me up and ideal to throw in your beach tote. Plus, I'm kind of obsessed with the idea of misting my face in general. Fancy.
