## New Column!

Emily Liebert loves Westport, traveling and books. In her new column she makes picks for locals.

### FOR YOUR STAY STAY

The Hadley suite and eighteen distinctly themed cottages, each one unswervingly unique and sumptuous, were designed by fifteen different architects. Can you carry a tune? Then the Music cottage is for you. If hitting the links is your thing, check into the Golf cottage. Or, maybe you just want to horse around as I did, which landed me in the Stable cottage—a contemporary reinvention of the old horse barns of New England, complete with a steam shower and sunken tub offering panoramic views of the breath-taking scenery. Other options include Maritime, Tree House, Helicopter and Artist.

### RESTORE

Unwind and reinvigorate in the 5,000-square-foot, state-of-the-art spa facility, while sipping organic tea or a glass of chilled Champagne in front of the stone fireplace. Enjoy a full range of restorative treatments or perhaps a private yoga class. If you want the decisive luxury experience, try the hour-and- forty-five-minute Biologique Recherche Ultimate Facial. It entails a firming, lifting and exfoliating booster, a hydrating masque and the application of Seconde Peau, billed as a “cosmetic alternative to injections.” The treatment boasts immediate results and a hand and arm massage.
