DELICATE CARE

The skin around the eyes is five times thinner than the skin on the rest of the body, so extra care must be taken with this area. **Biologique-Recherche** created the **Solution Démaquillante pour les Yeux**, a multi-phase eye-makeup remover in lotion form. The solution cleanses, reconditions and soothes the eye area with well-tolerated makeup removing and cleansing active ingredients such as kiwi water, essential fatty acids and extracts from licorice and kudzu.
