## The Future OF BEAUTY

### FOUR FOR SKIN

**Biologique Recherche** released four new products. Huile Bénéfique features botanical oils and flower and plant extracts to reportedly hydrate the body, hair and face. Lait Biosensible is a lotion that targets the cleansing and treatment of sensitive skin. Masque Exfoliant P50 Visage is an exfoliating and antiaging soft peel that contains fruit acids. Solution Démaquillante pour les Yeux is a tri-phase eye makeup removal lotion reported to cleanse, recondition and soothe the sensitive skin around the eyes.
