JANE WAGMAN, co-owner of Saje-design, New York City

"I call skin-care specialist **Aida Bica** a magician! I went to every well-respected skin doctor in New York to clear up some bumps by my nose. I was popping pills and putting on creams. Three days after my first ninety-minute Biologique Recherche Remodeling Facial [\$350–\$495] with Aida, my skin woes were cured. My big give-up since the big recession? Instead of seeing Aida every four weeks, I see her every five weeks!" 212-879-5257.
