### CREME CONTOUR DES YEUX BIOSENSIBLE

**Biologique Recherche** | This cream incorporates active ingredients, including the exclusive Specific Biologique Recherche Oxygenating Complex, to help protect and soothe the sensitive skin around the eyes and diminish dark circles without irritation. It is meant to relieve discomfort with kudzu extract and milk proteins, as well as reduce signs of fatigue with artichoke extract and red vine leaf extracts. Baobab fruit pulp extract assists in the reduction of fine lines and wrinkles, promotes the regulation of moisture balance and provides cells with lipids. Ophthalmologically and dermatologically tested, this hypoallergenic formula contains no artificial fragrance.
