EmulsionBiologiqueRénovatriceMains

Emulsion Rénovatrice Mains, is designed to be used after using Masque Gommage Mains. It complements the scrub and enhances the benefits of Masque Gommage Mains. Containing a blend of oil including Raspberry Pip Oil, Sacha Inchi Oil, and Cotton Oil, the product is designed to bolster the hydrolipidic barrier of dry, weakened skin. The rich cream contains Kiwi Cell [water](#), with Vitamins A and C, moisturizing [Hyaluronic Acid](#) and Mimosa Tenuiflora extract for repair. It is also formulated with Lemon extract to help combat pigment imperfections that appear with aging.

Actions include moisturizing and softening the upper layers of the epidermis and leaving a protective film on the skin's surface, protecting the epidermis from external aggressions, rebalancing the skin's pH, unifying skin color and strengthening the nails and softening the cuticles. The Emulsion retails for \$60, and is available in a 75ml/2.54 oz tube, as well as a professional format, 200 ml tube.
