Hot Looks: Protect Your Hands

by **Vanity Fair** December 6, 2010, 3:27 PM

2. When used two to three times a week, **Biologique Recherche's** Masque Gommage Mains cream scrub gently exfoliates dead skin cells while moisturizing and replumping with active ingredients like hyaluronic acid and purifying with burdock extract. Don't forget to follow up with Emulsion Rénovatrice Mains, a light hydrating emulsion that helps to rebuild a barrier for dry, fragile skin. The yummy-smelling formula provides intense hydration and nourishment for sensitive hands and help to strengthen nails to boot! The combination is a heavenly hand treatment, especially before bedtime.
