MOA: NEW SPA IN GUADALMINA

Marian Coromimas, owner of the chic new Moa spa at Guadalmina shopping centre, recently invited friends, clients and members of the press to the official launch. Guests tucked into sushi and drank chilled champagne while they viewed the contemporarily designed installations, decorated in pistachio, pink and woody tones. Moa will offer all sorts of facial and bodily treatments, featuring the latest in technology and techniques and a highly personalised service. "What I want is for a client to come in and tell me what areas they want to improve in, and we can devise treatments for their specific needs," says Marian.

Treatments to be enjoyed include oxygen, anti-wrinkle, firming, anti-cellulite and various therapies from prestigious firms Babor and Biologique Recherche, inventors of renowned peeling, lifting, firming, anti-acne and anti-age treatments.
